

Hi Tourist

Despite the Scandinavian coolness, Danes can actually be quite friendly. Our doors open inward to greet visitors. And we're on a first names basis with anyone. Still, we're not the best at bringing out our friendliness.

But hey, why not give us a hand? Take a conversation starter and help bring out the Danish friendliness. We'd love to get friendly with you :-)

Oh, and have a great summer! TAKE ONE!

Danes love beer and believe they (probably) produce the best beer in the world. Go ahead! Ask a Dane for directions to the nearest beer-stop.

Danish people like to talk. Help them break the ice with these friendly phrases:
Hygge (hükke), hej-hej (haihai), fedt (fet), sej (sai) & tusind tak (tuusen tak).

Denmark is the world's happiest country. And we are very proud of that. Do you want to know why? Try to ask a Dane. You might get an unusual answer.
